VARAŽDIN

In the historic chain of Central European Cities Varaždin is revealed as a rare urban pearl. Its unique urban identity shows not only the preserved Baroque architecture in the City's historical core but also the warmth of its squares and romantic streets. Numerous architectural heritage sights, more than nine centuries old, attest to the way of life of those living in Varaždin and the relationship between those who live in the City and guests. Even today Varaždin can surprise everyone with its indelible traces as the first Croatian Capital, when many famous artists lived and worked in Varaždin and the Central European nobles chose it as their centre for fashion.
